HB 292

"An Act relating to information and services available to pregnant women and other persons; and ensuring informed consent before an abortion may be performed, except in cases of medical emergency."

Since the early 1970's, Alaskan physicians who perform or induce abortions are required, in regulation, to inform patients "of the medical implications and the possible emotional and physical sequelae (consequence) of the procedure" ([12 A.A.C. 40.070](#)). [HB 292](#) raises these regulations into statute, and standardizes the information presented to the patients by means of a website maintained by the Department of Health and Social Services. This website will list accurate, objective information that explains resources available to a pregnant woman that may assist her in making and implementing her own reproductive decisions. This bill will enable women to make healthy, educated choices regarding their own individual and private circumstances.
