## Senator Gary Stevens Senate Majority Leader

For immediate release: April 25, 2006  
Contact: Doug Letch at (907) 465-4925

### **Senator Gary Stevens Legislation to Create Interim Working Group to Study Hospital Acquired Infections Passes the Senate**

(JUNEAU) - The Senate today unanimously passed SJR 19, creating the Task Force to Assess Public Reporting of Healthcare-Associated Infections. SJR 19 is sponsored by Senate Majority Leader Gary Stevens (R - Kodiak).

“Shockingly, some 2 million infections a year are acquired in hospitals and an estimated 90,000 people die as a result of these infections, making it the sixth-leading cause of death in the country. The cost to the consumers is also enormous between \$4.5 and \$11 billion a year,” Senator Stevens said. “Given these alarming statistics, it is vital for consumers to have full knowledge of how medical facilities fare with infection rates. I believe the task force will come up with the appropriate way to address this issue,” said Sen. Stevens.

SJR 19 will establish a ten-member panel that will include two senators, two representatives, the Chief of Epidemiology for the State of Alaska, one healthcare consumer from rural Alaska, one healthcare consumer from urban Alaska, a representative of the Alaska Native Tribal Health Consortium, a representative from the Alaska Chapter of the Association of Professionals in Infection Control and Epidemiology, and a representative of the Alaska State Hospital and Nursing Home Association.

The group will meet during the 2006 Legislative Interim to develop legislative recommendations for hospitals to disclose hospital acquired infection rates.

SJR 19 goes next to the House of Representatives for consideration.
