## **SPONSOR STATEMENT** **SB – 16: NINILCHIK PEDESTRIAN ACCESS**

The community of Ninilchik serves as a major tourism destination because of its location between two heavily utilized fishing areas; both of which also have state park facilities.

[This bill](#) appropriates funds for pedestrian safety to help alleviate the current unsafe conditions for people walking along the heavily trafficked routes. The path would extend from the state park at the Ninilchik River

The anticipated amount for the project is \$625,000.
